UPDATE ON STRATEGY <

FINANCIAL PERFORMANCE FY 2024 <

Global economic growth is forecast to come in slightly higher at 3.3% in 2025 from 3.2% in 2024 on the back of policy easing in advanced and emerging markets.

1 Global growth is projected to remain moderate, with divergence across economies.

2 Global inflation is projected to fall to 4.2%, though could remain sticky in 2025.

3 Slow decline in USD interest rates likely to keep external financing costs elevated for Emerging and Frontier markets.

Growth and currency outlook divergent across the region; with growth uncertainty in Kenya and Rwanda, while currency depreciation is higher in Tanzania.

KENYA

- Economic activity subdued across most sectors.
- Monetary policy appears restrictive to economic growth.
- Attempts to stimulate growth by further monetary easing.
- However, fiscal space is quite limited.

Real GDP Growth

USD~KES

UGANDA

- Business conditions remain favorable.
- However, restrictive monetary policy could hinder growth.
- Currency outlook uncertain, though performed well YTD.
- Oil investment crucial to medium- & long-term growth prospects.

Real GDP Growth

USD~UGX

RWANDA

- Outlook is clouded by external vulnerabilities due to escalating conflict with the DRC.
- Economic growth and fiscal budget projections could be reviewed in May.
- A wider current account deficit expected in 2025.

Real GDP Growth

USD~RWF

TANZANIA

- Government projects, agriculture and private investments to drive growth.
- Favourable donor relations expected to continue in 2025.
- Re-emergence of dollar scarcity in the local FX market.
- Monetary policy to pay more attention to the currency.

Over the strategy cycle, the Regional Business performance has followed a sustainable growth trajectory, establishing a strong foundation as a future growth engine

By leveraging AI capabilities in credit scoring, we have significantly improved our digital credit metrics and delivering strong PBT outcomes. This advancement positions us to achieve scalable growth in the future

We have successfully reoriented our funding mix to strengthen our CASA deposit base

Amounts in KES Bns

Drop in deposits reflecting reorientation to higher CASA and a more optimal & better priced funding mix

...CASA is now 52% of our deposit mix

On the back of interest rate pressures, we focused on protecting our bottom line by tightening deposit costs and improving pricing across all lending ensuring margin protection

Our efforts on protecting our margins enabled us to largely defend our NIM position...

... delivering resilient net interest income performance

Our non funded income streams received a healthy boost from fees derived from varied solutions we offer our clients

Y-o-Y we have seen a drop in our FCY deposit book due to translation effects given appreciation on the KES...
